## **PART 1: IN-YEAR REPORT**

### **TO: THE EXECUTIVE MAYOR**

DIRECTORATE: FINANCIAL SERVICES: BUDGET & TREASURY OFFICE: MUNICIPAL (BTO): FINANCE MANAGEMENT ACT (MFMA): SECTION 52d: QUARTERLY PERFORMANCE REPORT FOR THE PERIOD ENDING 31 MARCH 2026: Q3.

### **1. Purpose**

The Third Quarter S52(d) assessment is compiled to comply with the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (hereinafter referred to as the MFMA) in respect of Sections 52(d) and the Municipal Budget and Reporting Regulations as per government gazette no. 32141 dated 17 April 2009 in terms of Sections 31 and 33 and in the format specified in Schedule C.

During the third quarter of 2025/26, the Municipality billed an amount of R 217.9 million, YTD Actual amounts to R 755 million excluding capital grants with the YTD budget of R837.2 million, thus result with a negative variance of R82 million.

- The total transfers and subsidies shows the movement of R22.7 million in the third quarter, the total transfers and subsidies as at the end of March amounts to R78.9 million which result to a variance of negative R13.3 million when compared to YTD Budget of R92.2 million. Capital grants recognised only when the condition of the grant is been met.
- The expenditure on the third quarter amounted to R347 million, YTD Actual amounted to R991 million, which resulted to variance of, negative 24% when compared to YTD Budget of R R1.3 billion.
- The Capital expenditure shows the movement of R39.1 million during the third quarter of 2025/26, the YTD Total Capital expenditure amounts to R97.6 million with the YTD Budget of R140.7 million, thus result to variance of negative R43 million or - 31%.
- The cash and cash equivalents amounted to R24.9 million (R21.2 million on call investments and R3.6 million on Primary account) as at the end of March 2026.

The municipality's main goal is to remain cash flow positive and committed in stabilizing the municipality's finances, doing this by improving its cash position and improving our quality of services being rendered. Positive cash flow forecast based on expected revenue collections from monthly billing and the realisation of the debtors' book. The average year-to-date collection rate for 2024/25 is 44%. The anticipated monthly collection rate for 2025/26 anticipated at 50% and it is expected to steadily increase to 70% by the end of the financial year.

The Municipality is facing financial challenges and constraints pertaining to the debt owed to bulk purchases i.e. ESKOM.

The Municipality currently owes Eskom R3 billion, including Vat and interest as at the end of March 2026. On 23 February 2026, the municipality received a letter from the National Treasury communicating notice of intention to terminate the municipality's participation from the ESKOM debt relief programme.

Consultation by National Treasury with municipalities issued with letters of notice of intention to terminate ESKOM Debt Relief on 20 March 2026.

Ngwathe municipalities invited to an online meeting to receive a presentation by the National Treasury on the proposed "new" DAA. The essence of the "new" DAA is that:

Municipal council must resolve by 27 March 2026 whether to participate under the new DAA or not. If Council resolves to participate under the "new" DAA, such a resolution must be shared with the National Treasury by 27 March 2026 and only after then will the DAA MOU be shared with the municipality. After receipt of the DAA MOU, the municipality can still opt to reject the "new" DAA.

If the municipality resolves to enter the "new" DAA it will within 7 days receive one-third ESKOM debt write-off. The second one-third debt write-off will take place after eighteen (18) months. In addition, the last one-third debt write-off will take place six (6) months after the second write-off.

The main condition for the second and third debt write-off is payment of the current account in full. However, National Treasury reported that ESKOM is cognizant of financial struggles of municipality's and is open to negotiate a fixed percentage of the current invoice which is to be paid monthly. E.g. ESKOM and the municipality could agree that the municipality must pay 30% of the monthly account.

The municipality currently owe Eskom R3 billion. The municipality has a standing arrangement of paying R1 million via a debit order. During the third quarter the Municipality made the payment of R8 million towards Eskom. The payment made as to date amounts to R23 million.

The Municipality currently owes Rand water the amount of R29 million and made payment of R19.7 million towards Rand water during the third quarter. The total amount as at to date amounts to R60.8million.

The Municipality has payment arrangement with Rand water and has reached out to DWS with a view to make a similar payment arrangement. The Municipality has entered into DWS debt relief program.

The municipality currently has total debtors amounting to R1.2 billion of which the biggest chunk is from households with an amount of R630 million, whilst businesses account for R348 million and Organ of state R242 million.

The municipality started to implement credit control by instituting cut offs which is meant to assist the municipality to increase its lowly collection rate and under the current month the collection rate is 63% including prepaid income.

The Finance department is continuously engaging with all consumers i.e. government, businesses and households in order to urge them to meet their monthly obligations to the municipality or where they have financial constraints, then to make payment arrangements for their debts. We have consequently issued Final Letters of Demand in order to recover this debt, whereby all debtors have been given 7 days within which to settle their accounts or make suitable payment arrangements. Since some consumers did not pay before the 14 days' period elapsed, we have produced disconnection lists for all five towns, which is currently implemented.

## **2. Background**

Section 52(d) of the Municipal Finance Management Act requires that the Mayor of a municipality must within 30 days after the end of each quarter, submit a report to Council on the implementation of the budget and the financial state of affairs of the municipality.

As per the MFMA Budget Circular No. 94 “from 2019/20 onwards, municipalities are no longer required to continue with the use of the Budget Reform Returns to upload budget and monthly/quarterly expenditure information to the National Treasury Local Government Database for publication purposes. The National Treasury now will utilize only the mSCOA data strings, which are required for submission as prescribed, and all publications will use the data collected from the mSCOA data strings”

9	6.4.1	<p>- Has the municipality made adequate provision for debt impairment (considering the actual collection of revenue and property rates during the 12 months immediately preceding the tabling of the budget) on the A1 Schedule (Table A4 - Budgeted Financial Performance) of the Municipal Budget and Reporting Regulations?</p> <p><i>Note - For example, if the municipality during the preceding 12 months only managed to collect 80 per cent of its revenue (also property rates), the provision for debt impairment relating to the above collection trend should equal to 20 per cent of the 2023/24 MTREF revenue projections (into impact rates). If the municipality managed the debt impairment or tabled the budget and there was no realignment between the provision for such with the actual collection of revenue, the Provincial Treasury must respond to this item as "No".</i></p>	Yes	The municipality budgeted an amount of R 104 million, the Pre AFS disclosed the debt impairment of R216 million. The adjusted budget amount was corrected to R211 million
10	6.4.1	<p>- Has the municipality made adequate provision for depreciation and asset impairment (considering its asset register and physical state of assets) on the A1 Schedule (Table A4 - Budgeted Financial Performance) of the Municipal Budget and Reporting Regulations?</p> <p><i>Note - If the municipality merely used the depreciation and asset impairment to "balance" the budget and there is no real alignment between the provision for such with the state of assets/asset register, the Provincial Treasury must respond to this item as "No".</i></p>	Yes	The municipality budgeted an amount of R 54 million. The amount was Adjusted to R84 million.
11	6.4.2	<p>- If the municipality's MTREF is not funded, has it tabled and adopted a credible Budget Funding Plan as part of the MTREF budget (refer item 5.3 of MFMA Budget Circular no. 122, 09 December 2022)?</p> <p><i>Note - If the municipality has an FRP, a separate budget funding plan is not necessary. However, the PT / N/T must ascertain whether the existing FRP or equivalent will qualify for a funded MTREF. If not, the FRP requires strengthening.</i></p>	No	The Funding Plan was approved on the June 2025 and it was immediately uploaded on GoMuni portal
12	6.4.2	<p>- If the municipality's MTREF is not funded and it has an FRP per the legislative framework, does the existing FRP incorporate a credible Budget Funding Plan (will the FRP give effect to a funded MTREF over the period of the FRP) - aligning with the principles of a budget funding plan as envisaged in item 5.3 of MFMA Budget Circular no. 122, 09 December 2022)?</p> <p><i>Note - only if the municipality does not have an FRP may "N/A" be selected from the dropdown list.</i></p>	No	
13	6.4.2	<p>- Does the municipality's annual and monthly cashflow projections included on the A1 Schedule (Table A7 - Budgeted Cash Flows and Supporting Table SA 30 - Budgeted Monthly Cash Flows) of the Municipal Budget and Reporting Regulations aligns with and gives effect to the municipality's Budget Funding Plan strategy (or the FRP strategy) and related seasonal trends (for example higher winter Eskom tariffs, lower January collection rates, etc.?)</p>	Yes	ESKOM has a higher Winter season tariff but our tariff charges are not catered for and instead we have a flat tariff across all seasons. We have however submitted a Cost of Supply study to NERSA for approval so that we can start charging cost reflective tariffs
14	6.5	<p>Cost reflective tariffs - (excluding metros) has the municipality included its completed tariff tool (refer MFMA Circular no. 98 and item 5.2 of MFMA Budget Circular no. 122) as part of the municipality's annual tabled and adopted MTREF submissions with effect the tabling of the 2023/24 MTREF?</p>		The tool was submitted to NERSA but it didn't show that the electricity and water are cost reflective. Other services appear to be cost reflective e.g. sewerage, refuse collection etc. This is so because of debt impairment was not budgeted for correctly.

16	6.6.2	<p>- the municipality disconnects electricity services and/or block the purchasing of pre-paid electricity of any defaulting consumer/property owner unless the defaulter already registered as an indigent consumer with the municipality?</p>	No	The Municipality has embarked on an ongoing drive to disconnect consumers who are not paying their accounts and are in arrears. It is an ongoing process which is part of revenue enhancement and debt collection

18	6.6.4	<p>- If the defaulting consumer/property owner is registered as an indigent consumer with the municipality, is the monthly supply of electricity and water to that consumer/property owner physically restricted to the monthly national basic free electricity- and water limits of 50 Kilowatt electricity and 6 Kilolitres water, respectively?</p> <p><i>Note - the municipality's monthly MFMA s 71 statement must include as part of the narratives the indigent information in the following format:</i></p>		Not yet but instructions have been given to the Revenue division to restrict supply for consumption outside of FBS
	6.6	<p>Supporting evidence - The National Treasury and/or provincial treasury's related budget assessment confirms the municipality's relevant MTREF's related budget policies and by-laws demonstrate compliance with paragraph 6.6.</p>	No

<small>Note: although the norm and standard for collection (MFMA Circular No. 71) is 93 per cent monthly, municipalities under the debt relief support will be exempted for the first two years from achieving this ratio.</small>		
6.7	<p><b>- If the response in 6.7.1 is "No" and the municipality is unable to achieve the minimum average quarterly collection as per paragraph 6.7.1, has the municipality demonstrated to the satisfaction of National Treasury the following:</b></p>	No
6.7.1	<p>* the underperformance directly relates to Eskom supplied areas where the municipality does not have electricity as a collection tool and that the average quarterly collection of the municipality (excluding Eskom supplied areas) equals the required quarterly average collection set-out in paragraph 6.7.1;</p>	Yes
6.7.2	<p>* the municipality for technical engineering reasons is unable to physically restrict and/or limit the supply of water in the Eskom supplied area(s)?</p>	N/a
6.7.3	<p>* the municipality before 01 February 2024 attempted to enter into a service delivery agreement with Eskom for purposes of municipal revenue collection in the Eskom supplied area(s) as envisaged in sections 76 to 78 of the Municipal Systems Act, 2000 and that such failed and the reason(s) for the failure?</p>	Yes

6.8	<p><b>Municipality's Completeness of the revenue base –</b></p>	
6.8.1	<p>- Has the municipality demonstrated through the National Treasury property rates reconciliation tool that the municipality's billing system perfectly aligns to its Council approved General Valuation Roll (GVR) and/or any subsequent supplementary GVR compiled by the registered municipal valuer?</p>	Yes
6.8.1	<p>- If the response in 6.8.1 is "No", has the municipality demonstrated the steps taken to correct the variances identified? <small>Note – monthly progress against the action plan to address variances to be included as part of the municipality's debt relief compliance reporting in the MFMA s.71 statement</small></p>	Yes
6.8.2	<p>- For the latest ending Quarter -has the municipality submitted its completed billing system, GVR and/or interim GVR reconciliations required in terms of paragraph 6.8.1 to the National Treasury quarterly (refer MFMA Circulars no. 93, 98, 107 and 108) to the upload portal on <a href="https://gvruploadportal.treasury.gov.za">https://gvruploadportal.treasury.gov.za</a>?</p>	Yes

34	6.10.2	- has the Head of the relevant Provincial Treasury (delegated) monthly certified the municipality's compliance to these conditions, to the National Treasury's satisfaction as envisaged in the conditions for provincial treasuries (refer paragraph 4.1.1 to 4.1.5 of MFMA Circular no. 124) and timely uploaded the compliance certificate via the GoMMS (Global Portal) (non-compliance) (refer paragraph 4.1.5.1 to 4.1.5.2 of MFMA Circular no. 124) within one month of the non-compliance occurring? <i>Note - In the case of a non-delegated municipality the National Treasury to issue the compliance certificate.</i>	No	
35	6.10.3	- has the Provincial Treasury failed to rectify any provincial treasury non-compliance with any of the conditions for provincial treasuries (refer paragraph 4.1.1 to 4.1.6 of MFMA Circular no. 124) within one month of the non-compliance occurring? <i>Note - If the PT fails to address its failure with 100% compliance will be considered as non-compliance by the municipality at writ of paragraph 4.1.1.</i>	No	We have not yet started submitting it to the provincial executive and we however plan to start submitting it monthly

No conditions that MFMA Circular No. 124, paragraph 4.1.1.1 (Limitation on municipality borrowing powers) and 4.1.1.2 (Interest on municipal borrowing) are to be applied to any borrowing after the effective date of this relief approval as envisaged in MFMA section 40. Municipal borrowing, including interest rate of an amount but in any borrowing purposes are not considered within the ambit of this condition.</i>		
37	6.12	For the duration of the Municipal Debt Relief (to ensure proper management of resources):	Yes	
38	6.12.1	- has the municipality apportioned and ring-fenced in a sub-account to its primary bank account - (a) all electricity, water and sanitation revenue the municipality collects in any month; and (b) the component of the Local Government Equitable Share (LES) the municipality earmarked to provide free basic electricity, water and sanitation?	No	There is a dedicated account for electricity income but it is still not ringfenced accurately for prepaid electricity sales and the Revenue division has started recording the full revenue as per Section 64. We will also add another sub-account for ringfencing the water and sanitation income
39	6.12.2	- has the municipality during the month first applied the revenue in the sub-account (required per paragraph 6.12.1) to pay its current Eskom account and then secondly its bulk water current account before it applied the revenue in the sub-account for any other purpose? <i>Note - 100% of interest on the debt instruments, with a cap not to exceed the Minister of Finance's cap for municipal interest to average the municipality from MFMA 1.8(1).</i>	No	Our revenue for electricity is way below the current account being charged by Eskom, which is due largely to the fact that our tariffs are not cost reflective. The cost reflective tool has been utilised for proposed tariffs for the next Financial year 2025/26
40	6.13	Accounting Treatment - has the municipality fully accounted for and correctly reported on the write-off of its Eskom interest debt (settled existing as on 31 March 2023) as per any written instruction of the National Treasury, Office of the Accountant General issued for Municipal Debt Relief to date? <i>Note - to include accounting for any related benefits (e.g. interest suppression, etc.) and alignment with nSOSA.</i>	No	The revenue needs to be reconciled collectively first before we can start sending the bank statement for the ringfenced account. Dear Ms. Gaarekwe and Dr. Mothamaha

### MUNICIPAL DEBT RELIEF COMPLIANCE CERTIFICATE FOR THE PERIOD DECEMBER 2023 TO FEBRUARY 2026 - FS 203: NGWATHE LOCAL MUNICIPALITY.

1. The above-mentioned subject matter has reference.
2. In accordance with Municipal Debt Relief Circular No. 124, the Provincial Treasury is required to confirm and certify, within 20 working days of the end of each month, the adherence of each delegated municipality with the condition 6.1 to 6.14 of Debt Relief as part of the Provincial Treasury's (PT) report to the National Treasury (NT).
3. If a delegated municipality did not meet any conditions during a specific month, the Provincial Treasury's certificate of compliance must include a report detailing the non-compliance and the progressive support measures instituted by both the Provincial Treasury and the municipality to enhance adherence to the condition(s).

**Condition 6.1 - Municipality Non-Compliance:** In the debt relief conditions compliance certificate, Ngwathe Municipality overall score declined to 63 percent for the period of February 2026 as compared to last month's score of 66 percent. The main contributing factors to the overall performance not improving much are non-payment of Eskom current account and failure to upload disconnection lists. The performance sheet in the table below shows the municipality's overall debt relief compliance performance across the months of its debt relief cycle.

Table 1: February 2026 certificate

**Condition 6.3 - Maintaining the Eskom Bulk Current Account:** In accordance with requirement 6.3.1 of the debt relief conditions, Ngwathe municipality is not servicing Eskom bulk current account in line with MFMA s65(2)(e) and Circular 124. As of February 2026, creditors analysis shows the outstanding debt owed to Eskom amounted to R2 974 billion as compared to the previous month, reflecting an increase of approximately R45 million. This increase shows that the municipality is still not servicing its Eskom bulk current account as required. The municipality reported a payment of R1 million in the Section 71 narrative report, proof of payment was uploaded on the GoMuni portal to confirm payment. The amount paid is also not sufficient when compared to the total outstanding debt, this indicates that the municipality has not fully implemented the recommendation previously provided by Provincial Treasury to prioritise Eskom payments and adhere to agreed payment plans, as a result the Eskom debt continues to increase.

**Condition 6.4 - A funded MTREF:** The municipality’s adjusted budget for the 2025/2026 MTREF remains unfunded. The adjustment budget reflects a deficit position indicating that the municipality’s expenditure exceeds its revenue, this indicates that the municipality is not in a financial sustainable position. The financial performance reflected in A4 schedule is not a true reflection of municipality’s financial position, as is does not adequately provide for debt impairment and under budgeted depreciation.

**Condition 6.5 - Cost reflective tariffs:** The 2025/2026 tariff tools for tabled and adopted budgets are uploaded on GoMuni portal. The outcome of these assessments highlighted that tariffs are not cost reflective for all services except for wastewater, while solid will be cost reflective in year 2027/2028. The municipality is therefore required to incorporate a clear narrative within the 2026/27 tabled and adopted MTREF budget, and a strategy outlining the phase-in approach toward achieving cost reflective tariffs for all remaining services. The narrative should further indicate

corrective measures and timelines to address tariff funding gaps and improve long-term financial sustainability.

**Condition 6.6 - Electricity and water as collection tools:**

The municipality must physically restrict the monthly supply of electricity and water of the defaulting consumer/property owner registered as an indigent to the monthly national basic free electricity- and water limits of 50 kW electricity and 6 Kl water. The electricity disconnection list was not uploaded on the GoMuni portal for the reporting period. The Provincial Treasury recommends the municipality must upload the disconnection list timeously, including the minimum required information. Furthermore, the municipality should strengthen credit control measures by implementing electricity disconnections and water restrictions mechanisms for defaulting consumers to prevent excessive revenue losses and avoid unrestricted water supply, which contributes to financial strain and negatively impacts the municipality’s ability to meet Eskom bulk payment obligations.

**Conditions 6.7 - Maintain a minimum average quarterly collection of property rates and services charges:**

Comparison of Collection Performance (February vs January 2026)

Category	January 2026	February 2026	Movement
Overall	100%	36%	⬇️ Significant decrease
Electricity	49%	46%	⬇️ Slight decrease
Water	75%	24%	⬇️ Significant decrease
Sewerage	21%	54%	⬆️ Improvement

The municipality reported an overall collection rate of 36% in the month under review, which reflects a significant decline when compared to the previously reported 100%, which is not a true reflection of actual performance. Electricity collection was reported at 46%, remaining low and a concern as it affects the municipality’s ability to meet Eskom payment obligations. Water collection is particularly low at 24%, indicating weak revenue recovery in this service, while sewage improved to 54%. The overall poor collection performance indicates that the municipality has not effectively implemented credit control measures. The Provincial Treasury recommends that the municipality strengthen revenue management by improving billing accuracy, enforcing credit control measures, and enhancing collection efforts, particularly on electricity and water accounts, to improve its cash flow position and ability to meet bulk payment obligations.

**Condition 6.8 - Municipality's Completeness of the revenue base:** For the quarter under review (Q2) the municipality did submit the reconciliation that the municipality's billing system does not align to its council approved General Valuation Roll. However, the Section 71 narrative report includes Q3 information, which shows that the variances between the valuation roll and billing system have decreased compared to the Q2. The municipality has also developed a monthly GVR reconciliation action plan to address the identified variances. This indicates that the municipality is making progress in resolving discrepancies between the valuation roll and the billing system. Provincial Treasury recommends that the municipality to continue implementing the action plan to clear remaining variances and improve alignment between the valuation roll and billing system.

**Condition 6.9 - Monitor and Report on compliance:** The table below shows the extent to which the municipality has complied with the guidelines for preparing a narrative report for section 71 reporting.

## 16.11 Reduction of Water and Electricity Losses

### **WATER LOSS REPORT FOR NGWATHE LOCAL MUNICIPALITY FOR THE FINANCIAL YEAR 2025/2026**

#### **1. BACKGROUND**

In a municipal water supply system, from the water treatment works and reservoirs to the water service consumers, water losses refer to the volume of water produced and introduced into the distribution network that is not billed or accounted for through customer consumption. These losses are commonly referred to as Non-Revenue Water (NRW). Total water losses generally consist of two main components: Technical Losses and Commercial Losses.

##### **Technical losses**

These losses occur naturally within the water distribution system and are mainly due to leakages, bursts in pipelines, over flowing reservoirs, damaged valves, and poorly installed fittings. These losses may result from aging infrastructure, poor pressure management, and inadequate infrastructure maintenance.

##### **Commercial Losses**

These losses arise from inefficiencies in water management, billing, and metering systems. These include illegal water connections, meter tampering, faulty or inaccurate water meters, inconsistent meter reading, data capturing errors, and non-payment by consumers.

#### **2. PROBLEM STATEMENT**

The inconsistent revenue collection from water supplied to customers is the main cause of water distribution losses in the Ngwathe Local Municipality. The municipality is under financial strain because of the high amounts of non-revenue water.

##### **2.1. Water losses experienced by Ngwathe Local Municipality:**

- Lack of consistency in water meter readings.
- High number of unmetered or illegal water connections.
- Minimal transparency in meter reading and billing.
- Lack of water conservation awareness among municipal employees and communities.

- Lack of regular meter audits and inspections.
- Aging infrastructure leading to frequent pipe bursts and leaks. □ Lack of pressure management in the reticulation system □ Minimal cost reflective water tariffs.
- Inadequate accounting of municipal water consumption such as government buildings and public facilities.

### 3. DISTRIBUTION LOSSES CALCUTIONS FOR THE PAST 9 MONTHS FOR THE FINANCIAL YEAR 2025/26.

Ngwathe Local Municipality (FS203): S71 Monthly Budget Statement

The table above illustrates the following:

3.1. The losses from July 2025 to March 2026 have increased; however, December 2025 recorded the highest loss at 84% this is due to leakages that occurred in that period and possible illegal connections.

3.2. From July to September an increase of sales was noted however from October to December there was a decrease on sales then it went up again in February.

#### **4. ACTIONS TO BE CONSIDERED FOR THE 2026/2027 FINANCIAL YEAR:**

- Introduce step water tariffs for residential consumers to encourage responsible water usage and improve revenue recovery.
- Implementation of pressure management systems to promote water conservation and reduce excessive water consumption in high-demand areas.
- Implementation of water demand management awareness programs aimed at educating communities across all Ngwathe Local Municipality wards about the value of water as a scarce and costly resource.
- Implementation of customer engagement and debt recovery programs to negotiate payment arrangements with consumers who have long-standing water debts or are suspected of illegal water connections.

#### **5. CONCLUSION**

The implementation of the above strategies will assist Ngwathe Local Municipality in improving water management and reducing Non-Revenue Water within the municipal distribution network. These measures will also strengthen the municipality's ability to monitor water consumption, improve revenue collection, and ensure sustainable water service delivery. Through improved infrastructure management, accurate metering, and strengthened revenue systems, the municipality will be able to establish a more reliable and financially sustainable water supply system while significantly reducing water distribution losses.

## **ELECTRICITY DISTRIBUTION ANALYSIS REPORT QUARTER 3 (JANUARY TO MARCH 2026)**

### **BACKGROUND**

The report seeks to address and provide strategies that the section is implementing to continuously reduce the electricity distribution losses and work done for quarter 3.

### **DISCUSSIONS**

The distribution losses are defined as a combination of both technical and non-technical losses, which the technical losses are defined as non-revenue energy as they are caused by transformer and heat losses. While the non-technical losses are defined as controllable revenue energy lost, translate to revenue that can be collected from the non-technical losses.

The section then to fully recover on non-technical losses the following is then required:

- Identification of Customer base and usage
- Notified Maximum Demand per intake points from Eskom
- Points of Supply loadings
- Energy sales vs purchases analysis
- Work done(auditing) to continuously reduce energy loss and recover lost revenue

### **RISK MANAGEMENT**

Risk increases during the high electrical load conditions in winter, when bypassed meters and illegal connections overload grids, leading to unreliability that affects the NLM legally connected customers. These events also lead to go above the Notified Maximum Demand values at some of the NLM Eskom Points of Delivery, which trigger excess penalties on the Eskom account.

### **1.ELECTRICITY BULK PURCHASES**

<b>SUBSTATION/ SWITCHING STATION</b>	<b>NOTIFIED MAXIMUM DEMAND</b>	<b>AVERAGE MAXIMUM DEMAND</b>	<b>AVERAGE UNITS(KWH)</b>
